WELCOME NOTE BY THE UNIVERSITY PRESIDENT

Greetings, EUI Community,

Time has run so fast. Last October, specifically on the 20th, I realized that this is the third anniversary of EUI!

Thanks to all the esteemed parents for your trust and support. Thanks to all EUI's academic professors, colleagues, and support functions for your continuous dedication and hard work to create a memorable academic journey for our students.

Several moments pop into my mind every now and then with a big smile on my face: having our digital art students get the highest number of likes in an online art competition for expressing SDGs and climate change challenges, signing the dual-degree agreement with Telfer School of Management-University of Ottawa being among the top 1% management schools worldwide for having the triple crown accreditation, remembering the students of the Faculty of Engineering at Egypt University of Informatics (EUI) who achieved the highest scores in the blended course they took with Purdue West Lafayette during the summer semester, having some of our students at Faculty of Computing and Information Sciences attending now a blended course with University of Minnesota, and our latest "Top Awards Ceremony 2023."

I want to stress the fact that since its establishment, EUI has been working on achieving its vision and mission in alignment with the 17 United Nations Sustainable Development (SDGs).

We are constantly committed to constructing fair, healthy, and fulfilling student learning experiences for you and together with you. Throughout your entire experience with EUI, we are committed to working together with you, supporting you, and engaging with you so that you may take advantage of all that EUI has to offer.

I am happy with our accomplishments so far on various levels since EUI was founded in 2021, up until now. Our combined efforts will stay on course and go above and beyond.

PROF. REEM BAHGAT
PRESIDENT
EGYPT UNIVERSITY OF INFORMATICS

TOP ATHLETIC ACHIEVERS

AHMED ELGENDY QUALIFIES FOR PARIS 2024

We couldn't be any prouder of Ahmed Elgendy, EUI's Olympian and Business Informatics student, who has qualified for the Paris 2024 Olympics after winning the gold medal in the 2023 African / Oceania Pentathlon championships at the Cairo International Stadium.

SILVER MEDAL FOR EUI'S TAEKWONDO CHAMPION

Yahia Hassan Kamal, Computing and Information Sciences student made us all proud the moment he won the silver medal at the Arab Clubs youth Taekwondo championship at Cairo International Stadium, with the participation of 2,100 players representing 135 clubs from 10 Arab countries.

BRONZE MEDAL FOR OMAR KHALED

Omar Khaled, a Computing and Information sciences student, is yet another champion who confirmed his name on EUI's champions list by winning the 3rd rank and bronze medal at the National Fencing Championship for juniors under 20 years old.

TOP ACADEMIC ACHIEVERS

EUI students score the highest in PWL blended courses

Thirty students at the Faculty of Engineering were announced as the highest scores achievers in the blended courses they took with Purdue West Lafayette University during the summer semester as part of the efforts and the mission of EUI to activate its international partnerships and relations with the world's top-ranked universities, to offer dual degrees, in alignment with the state's directions to the Egyptian universities to partner with the most prestigious universities worldwide.

Out of the thirty students, twenty-three of them were able to excel and earn "A," three of them achieved "A-" two of them achieved "B+," and two achieved "B."

17 full scholarships for top Thanaweya Amma achievers

As we welcomed the new cohort for the Fall 2023 semester, we were glad enough that EUI was the final decision for 17 of the top Thanaweya amma achievers, who chose EUI to secure their promising future across the four faculties, which provide a 360° learning journey towards the digital era.

AGREEMENTS

Protocol of cooperation between EUI & TransIT

Another fruitful agreement securing a promising future has been signed between EUI, represented by the president, Prof. Reem Bahgat, and Transport Information Technology

(TransIT), one of the leading companies under the umbrella of the Ministry of Transportation, represented by Eng. Khaled Attia, Chairman and Managing Director.

The signage, witnessed by H.E. Lieutenant General Kamel Al-Wazir, Minister of Transportation, aims to train EUI students for the labor market and recruit students with the highest GPAs from the Engineering, and Computing and Information Sciences faculties. The agreement will also open collaboration in applied research to solve real-life problems and produce smart systems for the different transportation systems.

EUI cooperates with Praxilabs

To make the most of their expertise in creating innovative, immersive, and cost-effective solutions to EUI's science lab needs, Praxilab's top management, represented by Dr. Khadija Elbedweihy, Founder and CEO and Mrs. Safiya

Elbedweihy, Cofounder, visited EUI's campus to sign a protocol of cooperation with the Faculty of Computing and Information Sciences to enhance the educational experience of students in the presence of Prof. Reem Bahgat, EUI's President, Prof. Ahmed Hassan, EUI's Vice President for Academic Affairs and Prof. Hoda Mokhtar, Dean of the Faculty of Computing and Information Sciences.

FACULTY NEWS

BI HOLDS THE FIRST MEETING OF ITS ADVISORY BOARD.

The Faculty of Business Informatics (BI) held its first advisory board meeting on campus, with the presence of esteemed members from the industry sectors, Prof. Samaa Taher, the Faculty's Dean, along with academic professors and teaching assistants.

The dean introduced the advisory board members to the faculty's academic program, in which BI students can choose their preferred specialization in the third year, as well as the dual degree with the University of Ottawa, specifically Telfer School of Management in Finance, Business Technology Management, Digital Marketing, and E-commerce.

DR. YOUSSERI HASSAN AMONG THE TOP 2% OF STANFORD'S LIST

For the second consecutive year, and among more than 160,000 researchers out of more than 8 million active academics worldwide, considering 22 scientific fields and 176 subfields, Dr. Youssri Hassan Youssri, Associate Professor at the Faculty of Engineering has been declared by Stanford University of the USA to be among the top 2% of the world's most academically cited scientists in various academic disciplines for 2023, a new global achievement added to the achievements of Egypt University of Informatics.

INTERNAL EVENTS

EUI WELCOMES THE FALL 2023 COHORT ON CAMPUS.

The day we welcomed the third cohort on the Orientation Day for the Fall 2023 semester of the academic year 2023-2024 will stay in our memories as we watched our first-year students busy on campus knocking on doors to get their IDs, EUI emails and preparing for their first semester after being introduced to the different departments and faculties by our staff members, who were all ears and eager to answer all their inquiries and guide them on their first day of study.

The DJ beats created a full day of energetic, youthful vibes and some entertaining activities to create nostalgic moments for our first-year students to last forever.

TOP ACHIEVERS CEREMONY 2023

Egypt University of Informatics (EUI) celebrated the "Top Achievers 2023 Ceremony" for various academic, athletic, and student activities in the Auditorium Hall on campus in the Knowledge City in the New Administrative Capital, in the presence of students, parents, deans of the four faculties, academic staff members and support departments.

EUI HOSTS NASYP2023 ON CAMPUS

With a wide presence of engineers, academics, researchers, and students from North African countries and international speakers, in cooperation with the Institute of Electrical and Electronics Engineers (IEEE), Egypt University of Informatics concluded the agenda of the North Africa Students and Young Professionals

Congress (NASYP 2023), which was hosted by EUI over four days on campus in the Knowledge-City at the New Administrative Capital, under the patronage of H.E.Dr. Amr Talaat, Minister of Communications and Information Technology, H.E.Prof. Ayman Ashour, Minister of Higher Education and Scientific Research.

North Africa Students and Young Professionals Congress took place this year under the theme "Engineering technology and its role in serving humanity and cooperation between universities and industry partners to achieve sustainable development goals and build the voluntary capacity building for the young generation," with the support and sponsorship of Egypt Post, Valeo, and Dell Technologies.

EXTERNAL EVENTS

XR FOR GOOD METAVERSE COMPETITION

EUI was more than glad to host the first Egyptian Metaverse and Artificial Intelligence Week, held for three consecutive days under the valuable collaboration of the Ministry of Communications and Information Technology and in partnership with Meta, Egypt University of Informatics, and the American University in Cairo. We were pretty impressed by "VRTEEK," the "XR for Good Metaverse Startup Competition" winner, with their unique "Egypt Time Machine" presentation. UBRVR Esports ARENA did a fantastic job enough to announce its representative as the winner of the Fast Track Incubation Program Application Pass, offered by the National Academy of Information Technology for Persons with Disabilities (NAID)

EDUCATIONAL TRIPS

A VISIT TO GIZA PLATEAU

Complementing the series of field trips for university students to bring together the practical and theoretical aspects, a high-level delegation from Egypt University of Informatics' (EUI) board of trustees and the university council, accompanied by some students from the four faculties, arranged a visit to Giza Plateau after the execution of the comprehensive development scheme, to retrieve the historical image of the Pyramids area and maximize its archaeological value.

Our students reviewed the development steps and expressed their opinions to create a more interactive experience for visitors using the latest technology they studied from the first day of the study at Egypt University of Informatics.

STUDENT LIFE OFFICE

“SOLIDARITY WITH PALESTINE” WEEK

EUI students presented an honorable model of awareness of the importance of the Palestinian cause and recent Gaza events during the “Solidarity Week with Palestine” activities and events.

Our students from the four different colleges expressed their solidarity with the Palestinian people through some drawings and throwing poetry verses.

In cooperation with the National Alliance for Civil Development and the Egyptian Red Crescent, a blood donation campaign was also organized to provide Gaza victims with humanitarian needs. It was met with a high turnout of faculty members, administrative staff members from administrative departments and support functions.

CLUBS ORIENTATION DAY

After welcoming the new students for the Fall 2023 semester of the academic year 2023-2024, all student clubs' heads and members were present during the "Clubs Orientation Day" to introduce first-year students to the wide range of student clubs; they can join along their academic journey.

The representatives of nine different clubs, including IEEE-EUI Student Branch, TEDx, Marketing Information Club, Cybersecurity Club, RAJ Club, EUI Game Dev, and CPC Club, were present to introduce first-year students to their plans for the new semester and engage in different activities.

MILITARY EDUCATION

EUI male students finished a compulsory Military education course, including fitness exercises and an educational seminar on the great October victories.

The Military education course is a two-week mandatory subject for university male students, in which they learn about the military, its culture, and activities and perform basic military exercises.
